SAT PREPARATION PROGRAM

Our well-regarded program is known throughout Montgomery County for the quality of its instruction, superior test prep faculty led by Mary Ellen King, and impressive student score gains. Learn to approach the test analytically with confidence! Practice effective test-taking strategies to earn high scores. Examine the kinds of questions and content of the test, the format of test sections, and practice the skills and techniques for each type of question. Review useful approaches for eliminating and guessing, using actual test questions from past exams. Bring required text (if applicable), paper, writing supplies, and calculator for math lessons to class.

Most classes are scheduled at the Central Campus in Blue Bell, except those with a "P", which will be held at the West Campus in Pottstown.
