

The Colonial Cares Coalition Declaration of Shared Beliefs

We believe that collaboration and communication between the Colonial School District and police departments are critical in the prevention of drug and alcohol access and usage.

We believe that examining best practices in school districts nationwide is prudent and can be instrumental in guiding the direction of future programs. We have done this to date and will continue to do so.

We believe that working within the framework of our Memorandum of Understanding will ensure a positive and supportive relationship between the school district and the police department.

We believe that an ongoing assessment of the district's existing drug and alcohol prevention program is essential in evaluating where the district is, and where it needs to be.
