810 Transportation

The Colonial School District provides transportation for any resident pupil according to the Public School Code of 1949, Section 1361. Such transportation will be provided for elementary students residing more than 1.5 miles from the school and secondary students residing more than 2.0 miles, unless:

- *The Pennsylvania Department of Transportation has determined and certified that the highway, road or traffic conditions between home and school are such that walking along the road constitutes a hazard to the safety of the child, or*
- *The district has on file an approved individual education plan (IEP) documenting that the student requires a special accommodation for transportation.*

No student will have to cross a certified hazardous route to board a bus unless there is no other reasonably safe option available. No student will be required to walk more than 1 mile to a bus stop.

Every effort will be made to limit regular bus runs to 45 minutes.

The Superintendent of Schools shall establish an appropriate administrative regulation to carry out the above policy.
